COMPLETE STREETS BENEFITS

Health benefits consist of a lowered risk of chronic disease, reduced daily stress from driving, less motor vehicle congestion, improved air quality.

Economy benefits consist of lowered health care costs, an increase in productivity and retail sales in pedestrian-oriented environments, and a reduction in costs for roadway updates.

Environmental benefits consist of a reductions in motor vehicle emissions and less stormwater runoff from paved roadways flowing into natural water sources.

Social benefits consist of an increase in community building and greater social safety. Additionally, roadways are able to be converted into people-oriented spaces, with increased mobility options for all, and reduced systemic inequalities.
